May has been an entertaining and educational month for Bowers!...

***On May 13th Bowers was once again enthralled with Len Cabral
and his descriptive stories for family story night.***

Mr. Cabral had visited earlier in the year for storytelling, and everyone was excited for him to be here again. On May 14 The "National Theatre for Children" came to Bowers to present and teach about Energy and how to use our energy resources wisely. They presented in an engaging and creative way, that held the audiences' attention and made learning fun!
